

KRISEVA ATTEST · evidence review wireframes

Seven low-fidelity screens for a bounded, human-reviewed evidence integrity workbench.

SYNTHETIC DEMO DATA
RESEARCH-STAGE INTERFACE · NOT A REGULATORY FILING · HUMAN DECISION REQUIRED

01 · Case dashboard	02 · Source-to-field workspace	03 · Conflict queue	04 · Agent trace	05 · Risk and anomaly board	06 · Review and sign-off
07 · Evidence receipt					

Case dashboard	TASK Orient a reviewer to one synthetic case, its source inventory, and the three-field evidence state.	PRIMARY ACTION Open source-to-field workspace
	ERROR / EMPTY STATE Before review: keep all three fields PENDING. Never infer progress from source count.	MOBILE COLLAPSE Collapse inventory below the field index; keep the human-decision boundary above the fold.

LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.			

SCREEN 02 / 07

Source-to-field workspace

TASK

Compare a proposed field value with exact page, row, sheet, and cell coordinates before a human acts.

PRIMARY ACTION

Send disagreement to conflict queue

ERROR / EMPTY STATE

If a source preview cannot load, retain its fingerprint and mark the candidate unavailable; do not guess.

MOBILE COLLAPSE

Show one source at a time; stack coordinates directly above the review action.

LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.

SCREEN 03 / 07	TASK		PRIMARY ACTION	
	Make a disagreement impossible to miss and require a named human to select, correct, reject, or defer.		Record human decision	
	ERROR / EMPTY STATE		MOBILE COLLAPSE	
	Block the action until reviewer, source selection, and decision reason are present.		Stack candidates without reordering; repeat each coordinate beside its value.	
LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.

NO DEFAULT WINNER CANDIDATE B USD 24,000,000 Subscription register extract SCHEDULE A · CELL C11	CANDIDATE A USD 25,000,000 Administrator statement PAGE 2 · ROW COMMITTED CAPITAL DECISION RECORD Reviewer name required Reason required · selection required ACCEPT / CORRECT / REJECT / DEFER
LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.		

Agent trace	used, candidate output, and explicit abstention.	
	ERROR / EMPTY STATE If evidence is absent, end the trace at ABSTAIN. Do not synthesize a value or a source.	MOBILE COLLAPSE Render the trace as a numbered vertical record; never hide source fingerprints in a drawer.

SYNTHETIC DEMO DATA	SYNTHETIC DEMO DATA		RETURN TO UNRESOLVED FIELDS
Meridian Horizon Fund I Meridian Horizon Fund Management IFSC Pvt Ltd Quarter ended 30 June 2026 RESEARCH-STAGE INTERFACE · NOT A REGULATORY FILING · HUMAN DECISION REQUIRED	STEP 01 · INTAKE Load governed fields Closing NAV · Committed capital · Complaints closed FIXED SYNTHETIC CASE STEP 03 · PROPOSE Surface support or conflict Proposal only; no filing or compliance conclusion. HUMAN REVIEW BOUNDARY	STEP 02 · COMPARE Normalize candidate values Equality only; source count does not resolve disagreement. DETERMINISTIC PATH STEP 04 · ABSTAIN Investor complaints closed No candidate evidence is present. OUTPUT / UNSUPPORTED	
	LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.		

Risk and anomaly board	Show deterministic risk indicators and anomaly flags computed from the same evidence record, each closed by a named human disposition.		Disposition remaining flags
	ERROR / EMPTY STATE A flag stays open, visible, and un-resolved until a named human escalates or acknowledges it with a reason.	MOBILE COLLAPSE Stack indicator cards one per row; keep each flag card whole with its disposition form directly beneath it.	

SYNTHETIC DEMO DATA	SYNTHETIC DEMO DATA		DISPOSITION REMAINING FLAGS
Meridian Horizon Fund I Meridian Horizon Fund Management IFSC Pvt Ltd Quarter ended 30 June 2026 RESEARCH-STAGE INTERFACE · NOT A REGULATORY FILING · HUMAN DECISION REQUIRED	RISK INDICATOR Evidence coverage 2/3 fields carry candidate evidence	ANOMALY FLAG · HIGH Duplicate document fingerprint Two distinct claimed sources share one fingerprint.	
	COMPLIANCE LENS	FRAUD ANALYSIS LENS	
	ANOMALY FLAG · MEDIUM Conflict resolved toward higher value Fires only once the higher candidate is accepted.	DISPOSITION Escalate or acknowledge Disposer name and reason required before sign-off.	
	FRAUD ANALYSIS LENS	NAMED HUMAN REQUIRED	
LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.			

SCREEN 06 / 07	TASK		PRIMARY ACTION	
	Review accepted, corrected, rejected, and deferred decisions before producing a local evidence receipt.		Resolve conflict before sign-off	
	ERROR / EMPTY STATE		MOBILE COLLAPSE	
	Sign-off remains blocked while the capital conflict lacks a named reviewer and reason, or any anomaly flag lacks a disposition.		Place blocked state before the decision table; move each row into a labeled definition list.	
LOW-FIDELITY STATE · Exact source coordinates and human decisions remain the focal points.
